

VIII

ROYAL MEDICAL BENEVOLENT FUND

1836 CENTENARY YEAR 1936

Since the Foundation in 1836 the Fund has distributed nearly

£400,000

To medical practitioners in financial difficulties due to sickness or infirmity.

To their widows and families left without adequate provision.

To their fatherless children towards education.

The aims of this Centenary Appeal are :—

- (1) *For new subscribers* to raise the annual income by subscriptions and donations to £20,000.

An increase of £6,000 over the present income of £14,103 would enable allowances to medical practitioners to be increased from £40 to £52 p.a., and to dependents from £26 to £36 p.a.

- (2) *For special Donations* to create a Fund from which grants can be voted at the discretion of the Committee to—

(a) Very urgent and distressing cases.

(b) Towards training the widows and orphan sons and daughters of medical practitioners to enable them to be self-supporting.

Annual subscriptions, or donations, are very urgently needed, and cheques should be made payable to the Honorary Treasurer, and sent to the Royal Medical Benevolent Fund, 11 Chandos Street, Cavendish Square, London, W.1.
